

Pump engineer job description

Values & Talent are working with a growing family-owned drainage company who are actively looking for new staff who are up for a challenge!

I am seeking a hands-on pump engineer who can work well under pressure, solve problems and is comfortable with working with machinery.

As a pump engineer, you will be responsible for the installation, maintenance, and repair of pumps and related equipment. You will perform routine inspections, troubleshoot issues, and ensure proper functioning of the pumps.

Responsibilities:

- Install, maintain, and repair pumps and related equipment
- Perform routine inspections and preventive maintenance on pumps
- Troubleshoot and diagnose pump issues
- Replace or repair defective parts
- Test pumps to ensure proper functioning
- Maintain accurate records of work performed
- Adhere to safety protocols and guidelines

Key skills

- Strong mechanical aptitude
- Knowledge of pump systems and components
- Ability to read and interpret technical manuals and diagrams
- Proficiency in using hand and power tools
- Excellent problem-solving skills
- Attention to detail and accuracy in work
- Strong communication and interpersonal skills

Experience

- Pump Maintenance: 2 years
- Drainage Industry: 1 year

Benefits

- Company car
- Company pension
- Overtime available

This is a full-time position Monday to Friday, 45 hours per week

If you would like more information, please contact Charlotte at info@valuestalent.com

Your attention to detail, mechanical aptitude, and ability to interpret technical manuals will be crucial in carrying out your duties effectively.

To succeed in this role, you should have a strong understanding of pump systems and components. You must be skilled in using hand and power tools to replace or repair defective parts. Problem-solving skills are essential as you diagnose pump issues and find appropriate solutions. Additionally, attention to detail is important for maintaining accurate records of work performed.

Safety is a top priority in this role, so adherence to safety protocols and guidelines is a must. Strong communication and interpersonal skills are also necessary for collaborating with team members and providing excellent service.

If you have a passion for mechanical work, enjoy troubleshooting problems, and have the necessary skills to excel as a Pump Technician, we encourage you to apply.

Job Type: Full-time

Pay: From £22.00 per hour

Expected hours: 45 per week

Benefits:

- Company car
- Company pension
- On-site parking

Schedule:

- Monday to Friday
- Overtime

Experience:

- Pump Maintenance: 2 years (required)
- Drainage Industry: 1 year (required)
